Professional Summary:

Information Technology Engineer with over 10 years of experience in IT infrastructure, web & application programming. Over 3 years of specialized experience in developing responsive websites and web applications. Proven expertise in managing governmental IT systems, software lifecycle management, and cross-functional project coordination. Skilled in front-end development, modern JavaScript frameworks, and accessibility-compliant application design. Strong background in system maintenance, API integration, and Agile project execution. Additionally, spent two years teaching Information Engineering and programming languages (Pascal, Java, C++) at Lattakia University and private institutes, strengthening students' computational and programming skills.

Skills

Languages:
- Arabic (Native)
- English (Fluent)

Programming & Web Development:
- HTML, CSS, JavaScript
- Front-end Frameworks: React, Bootstrap
- Version Control: Git, GitHub
- SEO Optimization and Accessibility Compliance
- Unit Testing and Integration with Third-Party APIs

Additional IT Skills:
- IT Infrastructure Maintenance and Troubleshooting
- Software Installation, Setup, and Customization
- Technical Support for Organizational Departments and Committees

---

Professional Experience

- IT Engineer — Government Sector Syria | 2015 – 2024:
- Maintained and upgraded IT infrastructure for over 20 courts across Lattakia, Tartous, and Sweida.
- Managed hardware maintenance, software setup, and IT user support across multiple branches. • Trained and supported over 100 staff members on IT systems and applications.
- Collaborated with specialized committees to improve IT processes and digital transformation initiatives.

- Technical Development Manager — Fire Net (Local Company) Syria | 2017 – 2019:
- Managed web hosting, development projects, and client-side technical operations.
- Oversaw implementation of new features, performance optimization, and project delivery for small to medium-sized businesses.
- Coordinated with design and content teams to enhance user experience and ensure timely deployment.

- Instructor — Information Engineering Lattakia Universitya, Syria | 2020 – 2021:
- Taught Information Engineering courses to undergraduate students across multiple faculties, emphasizing computational thinking and practical applications.
- Delivered programming courses in Pascal, Java, and C++ at both university and private institutes in Lattakia and Tartous.
- Designed and implemented course materials to strengthen students' programming fundamentals and understanding of modern technologies.
- Fostered analytical and problem-solving skills by integrating foundational programming concepts with real-world examples.

- Freelance Front-End Developer Remote | 2022 – Present:
- Developed more than 30 responsive websites for local companies, restaurants, and service providers.
- Created over 10 web applications, focusing on front-end development, responsive design, and API integration.
- Implemented SEO optimization, performance tuning, and accessibility compliance across multiple projects.
